

social part

Date's
-Property Of Date-

what is the problem?

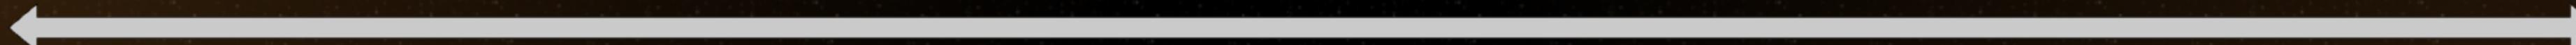

Why Blockchain?

social !

Why WEB3.0?

HOW to solve the problem?

Let's do what we couldn't do in the current web 2.0 and real world.

By doing so,

let's onboard the weB3.0 service naturally

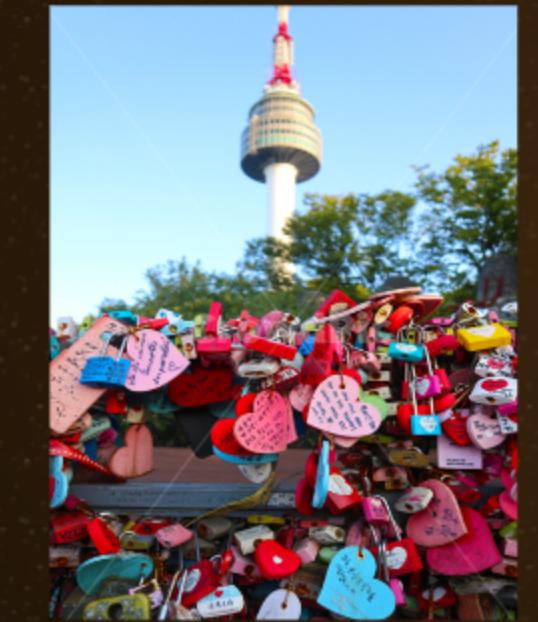

solution

Date's
-Property Of Date-
nft service

Provide a unique experience of **owning a date**

graffiti guest book calendar

Provide a **meeting place** to share with others

Use web 2.0 social media to boast about your date or birthday nft

Web 2.0 users **naturally flow into Web 3.0** as they go to celebrate birthdays
